

Omar Ghazi

Full Stack Web Developer – Software Engineering Intern

📞 0679427369 | ✉ omarbytessolution@gmail.com

🌐 [Omar Ghazi](#) | 🐙 github.com/Om7gh | 🌐 [Portfolio](#)

Education

1337 Coding School (42 Network)

Nov 2023 – Present

Bachelor's Level, Computer Science

Khouribga, Morocco

- Successfully completed the "Piscine," an intensive 4-week C programming bootcamp with a 10% acceptance rate.
- Developing deep expertise in **Unix Architecture**, **Memory Management**, and **Network Programming** using C and C++.
- Engaging in a 100% peer-to-peer curriculum, conducting rigorous code audits and collaborating on team-based projects.
- Currently focusing on **Full-Stack Web Architecture** and browser internal mechanics as part of the specialized curriculum.

Experience

Full Stack Web Developer

Jan 2022 – Present

Freelance

Remote

- Engineered end-to-end web applications for Arabic clients using the **MERN stack** and **Next.js**.
- Architected responsive, SEO-optimized landing pages, improving organic search traffic by 30% for small business clients.
- Implemented secure payment gateways and authentication systems using **JWT** and **Stripe API**.

Projects

High-Performance HTTP Server (webserve) | C++ (98 Standard), Network Programming

Mar 2025

- Built a fully functional HTTP web server from scratch in C++, adhering strictly to HTTP/1.1 RFC standards
- Implemented I/O multiplexing using `poll()` to handle multiple non-blocking connections
- Optimized request parsing and response generation for static assets and CGI, ensuring memory safety (no leaks)

Real-Time Pong Game & Social Platform | React, TypeScript, Fastify, SQL, Microservices

Jan 2026

- Architected a robust Single Page Application (SPA) enabling real-time multiplayer Pong matches using WebSockets
- Engineered a secure backend with Fastify, implementing OAuth2 strategies and JWT for stateless authentication
- Designed a responsive, modular UI with React and Tailwind CSS, ensuring cross-device compatibility

Real-Time Online Chess Game | React, Zustand, Tailwind CSS, Fastify, SQLite

Sep 2025

- Engineered a real-time multiplayer chess engine utilizing WebSockets for instant move synchronization and game state updates
- Leveraged **Zustand** for lightweight, centralized state management of game history, move validation
- Designed a polished, responsive board interface with Tailwind CSS

WorldWide Travel Tracker | React, Context API, Geolocation API

Jul 2025

- Developed an interactive travel tracking application integrated with the browser's Geolocation API
- Implemented the React Context API and `useReducer` for scalable global state management
- Utilized CSS Modules for scoped styling to prevent class name conflicts and ensure modularity

Technical Skills

Languages: TypeScript, JavaScript, C++, C, SQL, HTML/CSS

Frontend: React, Next.js, Tailwind CSS, Zustand, Context API, Shadcn/UI, MUI

Backend: Node.js, Fastify, Express, REST APIs, WebSockets, Microservices

Databases & ORM: PostgreSQL, SQLite, MongoDB, Prisma

Tools & DevOps: Git, Docker, Linux (Bash), Nginx, Postman, Vercel

Certifications

JavaScript: The Hard Parts, v2 | Will Sentance, Frontend Masters

Jan 2026

Deep JavaScript Foundations, v3 | Kyle Simpson, Frontend Masters

Feb 2026
