

OMAR GHAZI

Frontend Developer

+212 679 427 369 | omarbytessolution@gmail.com | linkedin.com/in/omar-ghazio | github.com/Om7gh | Morocco – Sale (Open to Relocation)

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years delivering high-performance, real-time web applications for international clients. Skilled in TypeScript, C++, Node.js, and React/Next.js with good expertise in Browsers architectures, microfrontend, and low-level network programming. Owns the full lifecycle — from system design and APIs Call best Practice.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, C++, C, SQL, Bash

Frontend: React, Next.js, Tailwind CSS, Shadcn UI, Zustand, Redux, Tanstack

Backend: Node.js, Fastify, Express.js, REST APIs, WebSockets, RabbitMQ

Databases: PostgreSQL, MongoDB, Supabase, Prisma ORM

DevOps & Systems: Docker, Nginx, Linux/Unix, Git/CI, Microservices, ELK Stack, Prometheus/Grafana

AI & Data: OpenAI API, RAG Systems

PROFESSIONAL EXPERIENCE

Full Stack Developer – Freelance

2022

Remote | MERN Stack | Mostaq Platform

- Delivered full-stack applications for 5+ Arabic clients across the full lifecycle — requirements, API design, React UI, and production deployment.
- Reduced delivery time ~20% by standardizing reusable component libraries and API patterns; maintained Git-based CI workflows and led code reviews.

TECHNICAL PROJECTS

Real-Time Multiplayer Gaming Hub

React · Fastify · TypeScript · WebSockets · OAuth2/JWT · Zustand · Docker

- Architected Pong & Chess multiplayer platform with <50ms latency across 100+ concurrent sessions; OAuth2/JWT backend supports 500+ users with real-time social chat.
- Improved UI render performance by 30% through Zustand state management and an optimized Tailwind CSS pipeline.

Custom HTTP/1.1 Web Server (C++98)

C++98 · poll() · I/O Multiplexing · Valgrind · Unix System Calls

- Built a non-blocking HTTP/1.1 server from scratch — 1,000+ concurrent connections, zero memory leaks (Valgrind), GET/POST/DELETE support, and a custom CGI handler.

E-Commerce & Analytics Dashboard

Next.js · Supabase · TypeScript · Shadcn UI · Recharts

- Full-stack store with 500+ products, sub-second filtering, 95+ Lighthouse score, and a Recharts admin dashboard tracking 1,000+ monthly transactions in real time.

EDUCATION

1337 Coding School (UM6P) – Software Engineering, Systems & Networks

Nov 2023 – 2026

Khouribga, Morocco | Selective 10% admission rate

- Peer-reviewed, project-based curriculum in C, C++, Unix systems, and networking — strong emphasis on code quality, problem-solving, and agile collaboration.

Faculty of Science – Mohammed V University (UM5)

2018 - 2022

Rabat, Morocco
